Re: Ontario Power Generation (OPG) 2022-2026 Payment Amounts Application
Pre-Application Stakeholder Conference – AMPCO Cost Eligibility Request
Board File No. EB-2020-0297

Dear Ms. Long:

I am writing pursuant to the Ontario Energy Board's (OEB) Invitation Letter dated December 9, 2020 regarding the above Pre-Application Stakeholder Conference to advise that the following representatives of the Association of Major Power Consumers in Ontario (AMPCO) intend to attend the OEB session on December 17, 2020:

- Mr. Colin Anderson, President, AMPCO
Email: canderson@ampco.org
Cell: 905-483-0285
- Ms. Shelley Grice, Consultant, AMPCO
Email: shelley.grice@rogers.com
Cell: 647-880-9942

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of distribution, transmission and generation companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

OPG indicates it expects to file a Custom Incentive Rate-setting (CIR) application with the OEB in December 2020, for approval of nuclear payment amounts and other matters for the 2022-2026 period. AMPCO intends to seek Intervenor status and cost eligibility in OPG's upcoming CIR application to ensure that consumer

interests and in particular the interests of industrial customers are fully represented in the determination of just and reasonable Payment Amounts. The OEB approved AMPCO as an intervenor in OPG's last Payment Amounts application (EB-2016-0152) and determined that AMPCO was eligible to apply for an award of costs.

AMPCO is interested in attending the OEB's Pre-Application Stakeholder Conference in order to provide input on the best plan for an efficient and effective hearing of OPG's upcoming application.

Costs

AMPCO seeks cost eligibility for its consultant Ms. Grice to participate in the Pre-Application Stakeholder Conference. Ms. Grice has been a consultant with AMPCO since 2008 and has participated in many OPG applications before the OEB. AMPCO intends to retain Ms. Grice to participate in OPG's upcoming application.

Please do not hesitate to contact me if you have any questions or require further information.

Sincerely yours,
