Dear Ms. Walli:

Re: OEB File No. EB-2020-0045
Oakville Hydro Electricity Distribution Inc. - 2021 Distribution Rate Adjustment Application

On December 10, 2020, the Ontario Energy Board issued its Decision and Rate Order on Oakville Hydro Electricity Distribution Inc.'s (Oakville Hydro) Incentive Rate-setting Mechanism application for rates effective January 1, 2021.

Oakville Hydro has reviewed the Tariff of Rates and Charges (the "Tariff") in Schedule A to the Decision and Rate Order and found that, while the variable rate riders for the Rate Rider for Disposition of a portion of Account 1588 are correct, the billing determinants for rate classes other than the Residential and General Service < 50 kW rate classes are incorrect. Oakville Hydro respectfully requests that the tariff be revised to reflect that the billing determinant for all rate classes is kWh.
