Dear Ms. Nanninga:

Re: Kitchener-Wilmot Hydro Inc. - Retail Transmission Rate – Network Service

On December 15, 2020, Kitchener-Wilmot Hydro filed a letter notifying the OEB of an error it has recently been made aware of where it has not been charged by the IESO for network service charges (CT 650) for one delivery point. Kitchener-Wilmot Hydro advises that, as a result, it has not charged its customers for these network service charges. Kitchener-Wilmot Hydro notes that it is seeking guidance on future collection and disposition.

The OEB acknowledges Kitchener-Wilmot Hydro's prompt notification. The OEB advises Kitchener-Wilmot Hydro to have this matter addressed within its 2022 IRM application provided that at that time Kitchener-Wilmot Hydro can explain and quantify the nature of the impacts with supporting evidence.

If Kitchener-Wilmot Hydro anticipates material cash flow constraints and, therefore, does not feel it prudent to wait for this matter to be addressed in its 2022 IRM application, it may choose to file a standalone application explaining its circumstances at any time. At that point, the OEB will determine next steps.

Please direct any questions relating to this matter to Marc Abramovitz, Advisor at 416-440-7690 or Marc.Abramovitz@oeb.ca.

Yours truly,
