Dear Ms. Long:

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (“OEB”) File Number EB-2020-0134
2019 Deferral and Variance Account Clearances Application (“Application”)
Confidential Document associated with Appendix B to Settlement Proposal**

On January 5, 2021, Enbridge Gas filed the Settlement Proposal for the above noted proceeding.

Issue 2(a) of the Settlement Proposal addresses the Enbridge Gas Distribution (“EGD”) Rate Zone 2019 Storage and Transportation Deferral Account. As seen in the write-up of that item, the parties agreed that Enbridge Gas would provide the OEB with documents summarizing its RFP process for market-based storage capacity acquired for 2019 utilization. The subject documentation was attached as Appendix B to the Settlement Proposal.

Given Enbridge Gas’s concern that the confidential and commercially sensitive information set out in the documents might, if made public, compromise Enbridge Gas’s commercial position in respect of future storage procurements and related negotiations which would not be in the best interests of either Enbridge Gas or its ratepayers, the parties to the Settlement Proposal have agreed that it would be appropriate for redacted versions of the subject documents to be filed on the public record.

The public version of the storage RFP summary documentation attached as Appendix B to the Settlement Proposal shows redactions of confidential and commercially sensitive information, but includes all headings and other non-confidential information.

With the paper version of this letter that is being filed with the OEB, Enbridge Gas is providing the unredacted version of the documentation attached as Appendix B to the Settlement Proposal. Enbridge Gas requests that the OEB treat this document as confidential, pursuant to the OEB’s Practice Direction on Confidential Filings. As noted, all parties to the Settlement Proposal agree to the appropriateness of this request.
