

**Hydro One Networks Inc.**

**Application for leave to construct electricity  
transmission line facilities in the City of Toronto.**

**PROCEDURAL ORDER NO. 2**

**January 8, 2021**

Hydro One Networks Inc. (Hydro One) applied to the Ontario Energy Board (OEB) on October 27, 2020 under sections 21, 92 and 97 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), for an order granting leave to construct approximately 5 circuit kilometres of 230 kilovolt electricity transmission line and associated facilities in the City of Toronto (Application).

Procedural Order No. 1, issued on December 10, 2020, established the Application's procedural schedule, up to and including Hydro One's filing of its reply argument.

On January 7, 2021, Hydro One filed a letter identifying that it intends to descope the mid-shaft at Sherbourne St. and Shuter St. (the mid-shaft) from the works being requested as part of the Application. Through ongoing detailed design work, Hydro One has determined that the mid-shaft described in the Application is no longer necessary.

**Interrogatories**

Provision is being made for additional written interrogatories from OEB staff and intervenors on the change described in Hydro One's January 7, 2021 letter. The procedural schedule established through Procedural Order No. 1 otherwise remains unchanged. For clarity, Hydro One is required to file complete written responses to all interrogatories and serve them on intervenors by January 18, 2021.

Parties should consult sections 26 and 27 of the OEB's [Rules of Practice and Procedure](#) regarding required naming and numbering conventions and other matters related to interrogatories.

It is necessary to make provision for the following matters related to this proceeding. Further procedural orders may be issued by the OEB.

**IT IS THEREFORE ORDERED THAT:**

1. OEB staff and intervenors shall request any relevant information and documentation from Hydro One related to Hydro One's January 7, 2021 letter, that is in addition to the evidence already filed, by written interrogatories filed with the OEB and served on all parties by **January 13, 2021**.

Parties are responsible for ensuring that any documents they file with the OEB, such as applicant and intervenor evidence, interrogatories and responses to interrogatories or any other type of document, do not include personal information (as that phrase is defined in the *Freedom of Information and Protection of Privacy Act*), unless filed in accordance with rule 9A of the OEB's *Rules of Practice and Procedure*.

All filings to the OEB must quote the file number, **EB-2020-0188**, and be submitted in a searchable/unrestricted PDF format with a digital signature through the OEB's web portal at <https://pes.ontarioenergyboard.ca/eservice/>. Filings must clearly state the sender's name, postal address and telephone number, fax number and e-mail address. Parties must use the document naming conventions and document submission standards outlined in the RESS Document Guideline found at <https://www.oeb.ca/industry>. If the web portal is not available parties may email their documents to [registrar@oeb.ca](mailto:registrar@oeb.ca).

All communications should be directed to the attention of the Registrar at the address below and be received no later than 4:45 p.m. on the required date.

With respect to distribution lists for all electronic correspondence and materials related to this proceeding, parties must include the Case Manager, Andrew Pietrewicz at [Andrew.Pietrewicz@oeb.ca](mailto:Andrew.Pietrewicz@oeb.ca) and OEB Counsel, Michael Millar at [Michael.Millar@oeb.ca](mailto:Michael.Millar@oeb.ca).
