Toronto ON M4P 1E4

**RE: EB-2020-0212 – EGI Federal Carbon Pricing Program - FRPO Submission**

We are writing on behalf of the Federation of Rental-housing Providers of Ontario (FRPO) in the above subject proceeding.

In respect of the Board's Decision on Scope of Proceeding issued November 20, 2020, FRPO reviewed its issues and found that some were not in scope. After this process, we reviewed the interrogatories of Energy Probe and were satisfied that forecast and non-utility issues were being sufficiently canvassed and therefore communicated to the Board that we would not be submitting interrogatories.

We reviewed the interrogatory responses provided and an initial draft of the Energy Probe's submissions. We have subsequently reviewed the Energy Probe and Staff submissions. We support Energy Probe's submission and the concerns noted and thank them for taking the lead for ratepayers in this matter. As such, we will not be submitting further argument in this matter.

Respectfully Submitted on Behalf of FRPO,

Dwayne R. Quinn  
Principal  
DR QUINN & ASSOCIATES LTD.
