Learn more. Have your say.

Ontario Power Generation Inc. has applied to the Ontario Energy Board with a plan to increase the amount it charges for the output of its nuclear generating facilities in each of the five years beginning January 1, 2022 and ending on December 31, 2026. Ontario Power Generation Inc. has also applied to the Ontario Energy Board to maintain, with no change, the base payment amount it charges for the output of its regulated hydroelectric generating facilities for the period from January 1, 2022 to December 31, 2026 at the payment amount in effect on December 31, 2021. If the application is approved as filed, Ontario Power Generation Inc. has calculated that the monthly bill for a typical residential customer using 700 kWh of electricity per month would increase by the following amounts:

2022	2023	2024	2025	2026
\$1.04	\$0.26	\$0.27	\$0.26	\$0.23

Other customers, including businesses, will also be affected.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Ontario Power Generation Inc.'s (OPG) application. During this hearing, which could be an oral, electronic or written hearing, we will question OPG on its case for a payment amount increase. At the end of this hearing, the OEB will decide what, if any, increase will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
