Re: Ontario Power Generation 2022 to 2026 Payment Amounts
AMPCO Intervention Request
Board File No. EB-2020-0290

Dear Ms. Long:

I am writing pursuant to the Board's Notice regarding the above proceeding to request intervenor status.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed. AMPCO has previously been approved by the Board in numerous OPG proceedings including OPG's previous Payment Amounts application, EB-2016-0152.

AMPCO's interest in the Board's regulation of distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability, affordability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

OPG seeks an order or orders approving payment amounts and rate riders for its hydroelectric and nuclear generating facilities and OPG's nuclear rate smoothing proposal. OPG also seeks approval of its production forecasts, the cost of capital, disposition of audited December 31, 2019 deferral and variance accounts balances and several approvals related to the Darlington Refurbishment Project. In addition, OPG seeks to establish two new deferral accounts: the Pickering Closure Costs Deferral Account to record any employment-related costs, and non-capital costs related to third party service providers incurred by OPG that arise from any Pickering closure activities; and the Impact Resulting from Optimization of Pickering Station End-of-Life Dates Deferral Account to record the revenue requirement impact arising from changes to nuclear liabilities and depreciation and amortization expense resulting from changes to the Pickering station end-of-life dates, for OPG's prescribed nuclear facilities.

P. 416-260-0280
F. 416-260-0442

AMPCO is intervening in order to ensure that consumer interests and in particular the interests of its members and industrial customers are fully represented in the determination of just and reasonable Payment Amounts. AMPCO intends to generally review the major drivers of the revenue deficiency, and any other areas that are relevant to its members' interests. AMPCO intends to be active in all key aspects of the proceeding including interrogatory preparation, technical conference, settlement conference, electronic or oral hearing and argument, as required.

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings, in particular OPG proceedings.

Notice

Please serve all correspondence pertaining to this proceeding to AMPCO's consultant as follows:

Ms. Shelley Grice, P. Eng., Consultant
46 Scarborough Road
Toronto, Ontario M4E 3M5
C: 647-880-9942
F: 416-260-0442
Email: shelly.grice@rogers.com

I trust this letter will suffice for the Board to grant intervenor status to AMPCO and to confirm AMPCO's eligibility for a cost award.

Best Regards,

Colin Anderson
President
