Dear Ms. Long:

Re: EB-2019-0166 – MPAC Response to OPI Request for New Evidence Submission

Attached, please find the sworn affidavit of Ryan Ford, which MPAC wishes to file in response to the Ontario Petroleum Institute (OPI)'s New Evidence.

MPAC was advised that if after it received responses to its interrogatories it felt additional evidence was required, we were to file a letter indicating the nature of the evidence we wish to file. As MPAC does not intend to make interrogatories with respect to the Affidavit of Mr. McIntosh, and in the interest of expediency and the Board's comments in Procedural Order No. 6 that "it is appropriate to have all potentially relevant information on the record to allow for a comprehensive review and decision on this application", I therefore provide the attached Affidavit of Ryan Ford, sworn today.

I would also reiterate the statement included in my letter to the Board dated January 8, 2021 with respect to OPI's proposed submission that fairness dictates that MPAC should be granted the same opportunity to respond to OPI's evidence that OPI had with respect to MPAC's.

Yours very truly,

Electronically Signed

Jennifer A. Barlow
