Christine Long
Registrar
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, Ontario
M4P 1E4

Dear Ms. Long,

**Re: Enbridge Gas Inc. (“Enbridge Gas”)
Ontario Energy Board (“OEB” or the “Board”)
File No.: EB-2019-0172 and EB-2020-0160
Windsor Line Replacement Project (“Project”)
Update on Construction Timeline and In Service Date**

Further to the Decision and Order in the Leave to Construct (“LTC”) proceeding, EB-2019-0172, dated April 1, 2020 and Section 101 proceeding, EB-2020-0160, dated November 12, 2020, Enbridge Gas would like to provide the following update with respect to the Windsor Line Replacement Project.

Per section 4 in the aforementioned Decision and Order, in EB-2019-0172, Enbridge Gas is to advise the OEB of any proposed change in the project.

Enbridge Gas filed a Section 101 application to resolve a dispute between Enbridge Gas and The Corporation of the County of Essex (“Essex County”) as the Company was unable to secure consent from Essex County for the construction of the Project within County Road 46 right-of-way. The dispute with Essex county caused a delay in the construction timeline. Enbridge Gas could not start construction of the section of the pipeline under the jurisdiction of Essex County until a decision was made in the section 101 application.

Enbridge Gas therefore proceeded with replacement of the Windsor Line in two sections: one section is east of Comber Transmission Station (“Eastern Section”) and the other section west of Comber Transmission Station (“Western Section”). The Eastern Section was replaced in 2020 as Enbridge Gas had all the necessary approvals and permits to complete that section. The Western Section will be replaced in 2021. Enbridge Gas expects to put the entire section of the Windsor Line project in service in November 2021.
