Christine Long  
Registrar  
Ontario Energy Board  
2300 Yonge Street  
Suite 2700  
Toronto, ON M4P 1E4

Dear Ms. Long:

**Re: Enbridge Gas Inc. ("Enbridge Gas")  
EB-2020-0181 – 2021 Rates Application – Phase 2**

---

We act as counsel to Enbridge Gas in this matter.

Yesterday, we filed a letter with the Board requesting that Enbridge Gas be permitted to update its prefiled ICM evidence relevant to the St. Laurent Phase 3 Project, and also requesting that the Board extend the deadlines set out in Procedural Order No. 1.

At around the same time as our letter was submitted, representatives of other parties in this proceeding filed letters with the Board requesting that a technical conference be convened. Those parties take the position that they require a technical conference to receive fuller responses to certain interrogatories.

Should the Board agree that it would be appropriate to convene a technical conference, Enbridge Gas has three suggestions for the Board to consider:

- It would be appropriate to wait until after Enbridge Gas has filed its updated ICM evidence and answered supplementary interrogatories on that updated evidence before convening the technical conference.
- The scope of the technical conference should be expressly limited to items that are at issue in relation to Enbridge Gas's request for approval of ICM unit rates related to the three 2021 ICM Projects, and should not include revisiting or examining items that have been or will be considered in the LTC applications for the 2021 ICM Projects.
- A one day technical conference should be sufficient for parties to ask follow-up questions on relevant interrogatories in this proceeding.
