This is ridiculous an increase for what purpose? My hydro has increased 260% and that is no mistake and when you call I am told everything is normal, how? The overall problem is your costing people right out of the market, how do seniors or low income families facilitate such a cost increase, enough is enough. We are all being held hostage to this and what say do we get, little to nothing. It should be illegal to increase cost at will and more so in a time of a pandemic. I see or read no justification for the increase.
