Dear Ms. Long,

**EB-2020-0188 – Hydro One Networks Inc. Leave to Construct Application – Power Downtown Toronto – Delay Request for Reply Submission**

---

Hydro One Networks Inc. (Hydro One) is in receipt of all submissions provided by intervenors in the aforementioned proceeding. The current procedural order requires Hydro One's reply submission to be provided to the Ontario Energy Board (OEB) and intervenors by February 12, 2021. Hydro One is requesting a one week delay to February 19, 2021, for the reply submission date.

Hydro One's request is predicated on a scheduled meeting between Hydro One, the City of Toronto and CreateTO that is focused on continuing discussions regarding the temporary property rights at 75 Elizabeth Street documented in the City of Toronto's submission. The meeting is scheduled to take place on February 16, 2021. Given that all other intervenor submissions have been supportive of the leave to construct application, Hydro One submits that the intent of the one week delay is to assist the OEB prior to rendering a decision by addressing the one outstanding intervenor issue on this leave to construct application.

This correspondence has been filed electronically through the OEB's regulatory electronic submission system.

Sincerely,

A handwritten signature in black ink, appearing to read "Joanne Richardson".
