DECISION AND ORDER

On November 26, 2020, Envista Energy LP (Envista) filed an application with the OEB under section 60 of the *Ontario Energy Board Act, 1998* (OEB Act) for an electricity retailer licence to retail to large volume consumers.

This Decision and Order is being issued by the Delegated Authority without a hearing pursuant to section 6(4) of the OEB Act.

Envista is a special purpose entity formed for the purpose of owning behind the meter storage facilities and providing electricity to large volume industrial customers under the retail power purchase agreements. Envista is an affiliate of Demand Power Group Inc., a licensed electricity retailer that will be managing the operating activities of Envista.

After considering the evidence and assessing the technical capability and financial viability of the applicant, the OEB finds that it is in the public interest to grant the application and issue an electricity retailer (large volume) licence to Envista Energy LP.

IT IS ORDERED THAT:

1. The application by Envista Energy LP for an electricity retailer (large volume) licence is granted, on such conditions as are contained in the attached licence.
