I'm opposed to the elimination of the Seasonal Rate Class as our cottage would be moved into the R2 class and effectively more than double the rates we currently pay.

The precedent setting rates have been in effect since we bought the cottage in 1990.

Perhaps the OEB could consider a compromise and raise the rates midway between the current rate and that of the R2 class.

My wife and I are about to retire and the rate increase will have a significant impact on our quality of life.
