Dear Ms Long:

Re: EB-2020-0091 – EGI IRP – GEC/ED Presentation: Corrected EFG Slides and Report

During his presentation Mr. Neme noted that his slides, as presented, were slightly modified from the version that was pre-filed. Attached is a corrected set that corresponds to the set presented. The changes were to clarify the wording on slide 6 and to correct a mechanical error in the table on slide 27. A similar correction has been made to the EFG report, also attached.

Sincerely,
