To whom it may concern,

We have been with Hydro One since we built our cottage in LOW Ontario, plus 10 years now. We are recognized as seasonal, on leased reserve land. This change could potentially double our rates I'm told after speaking with Hydro One customer service. Can you please explain to me how any utility service can increase their rates two fold ? I was advised that based on my current history of usage my delivery charge would go from \$47.00 approximately to over \$100.00 monthly.

This is unreasonable and unrealistic. Can you please confirm if this is the case based on your decision to eliminate the seasonal rates.

Kind regards,
Shawn McLeod
