-- Comments --

I object strongly to the increase in rates for our seasonal properties that are used only 5 months of the year. According to the chart of rate increases the R2 category has the largest increase of the three rate classes. Our delivery cost of hydro is already MORE than I use. It is also more for 6month use than I pay for hydro to my permanent home in London Ont. How can this be fair!!

Please consider a seasonal rate for those of us that have limited use of hydro and yet the highest rates which are going to go HIGHER.

Thank you,  
Susan McNamee
