**Subject:** COMPLAINT REGARDING CASE EB-2020-0246

To Whom it may concern,

I would like to file a complaint regarding the proposed hydro rate increase by Hydro One regarding the subject file for my property located at, [REDACTED].

1. As a retiree, on fixed income, the proposed rate increase (54%) is unacceptably inflationary and would make my property unsustainable. I would be forced to sell. It would have a dramatic impact on my lifestyle and the lifestyle of my family.
2. As a long time participant of the local community, (20 years) I have participated in adding economic activity by purchasing goods and services and providing employment to local constituents. By raising rates it will cause me to sell my property and leave the area. No doubt others people similarly impacted will do the same. It will have a significant deflationary impact on the community;

I would like to become actively involved in fighting this proposed rate increase in any way. It will affect how I vote in the future. Please advise how I can participate. Thank you for your consideration
