Seasonal property at [REDACTED] is a hunt camp mainly used from September to November. As seniors, usage is now based on our health & costs associated with getting there. Our highest yearly hydro cost 2018, \$1035.02 @54% increase would mean an extra \$558.91. Add that increase to higher gas & property taxes increases to us on fixed income makes this property no longer affordable. We are hoping OEB realizes how the proposed bill increases will impact us and other seasonal customers.
