I've just received your letter regarding the elimination of the Seasonal Rate Class. It is remarkable that OEB has arbitrarily decided with a 54% increase in my monthly electrical charges. This is absolutely ludicrous! How can the government allow this to happen? An annual increase of \$648 in additional electricity charges hardly seems reasonable. As a result of living in a low density area, we are being penalized for our decision to live in a smaller town by the OEB. As with all government policies, you have decided to impact the financial health of many Ontarians! Absolutely despicable!
