Subject: High rates re: FILE EB2020-0246

Dear sir/madam, this letter is in response to the re-pricing of rural electricity rates scheduled for Spring of 2021. Rural customers already pay high rates and, based on Ontario Hydro's rate schedule, now face face increases of over 25% -a rate ten times that of inflation. This is unacceptable, particularly given the uncertain economic times we are currently in. Power is often intermittent in our area, and we receive no credit or rebate for days without power. An increase in prices for poor service adds insult to injury. This decision will hurt rural customers and should not happen.

Regards,

Dayna and Martin Weiler
