A government decision to increase residential power rates by 50-100% is outrageous. As an Ontarian, I am appalled at the attempt to increase rates in this way. I thought governments only behave this way in autocracies and banana republics. Your notice states i should expect "a total bill increase of more than 10%". That is misleading and borderline fraudulent once you read the fine print. It will be much, much higher than that.

Please record my opposition to this increase. It's a disgusting theft perpetrated on Ontario residents who have no other option than to buy from a single provider.
