Case # EB-2020-0246

Seasonal Rate Class classification changes @ [REDACTED], Township of North Glengarry.

I have received a letter from Hydro One concerning the above planned changes.

I strongly oppose this change. It does not appropriately reflect anticipated costs for services. They are totally unacceptable or reasonable.

As Ontarians we are strongly encouraged to support our provincial economy and by increasing these rates (to my seasonal property) it discourages my doing so. I can easily vacation out of the province/country for cheaper than what I am told the cost for hydro delivery ONLY will be. There are other full time residents in this area which means lines/delivery need to be maintained.

It will actually cost permanent residents less for Hydro use on a full time basis than it would cost me for 5 months of the year.

I would like to be kept informed and participate at the hearings that are planned.

I am officially objecting to this change/rates.
