Hello, The hydro is rarely turned on in the building @ 135 Summit rd. An old schoolhouse built in 1901, A hunting camp for a small group of guys that pay hydro bills at home as well. According to my notice we used 21.06kWh /month last yr. This amount is based on 5 months of usage not 12. Because the hydro is off the rest of the year. But the club is paying approx. \$500 a yr. in Distribution costs. Ridiculous! This should be paid by the full time residence/ higher usage customers or a higher % than those that rarely using hydro. I am considering disconnecting the hydro because it is insane to pay so much each month for nothing.
