Hydro One Account # [REDACTED].

We are in receipt of Hydro One's notice (EB-2020-0246) to eliminate the Seasonal Rate Class. We received the notification via mail on Feb 26, 2021.

From what I can see, if we follow the table detailed in the notification, the small amount of electricity that we consume will approximately double in price. I do not see the 10% increase that was stated in previous documentation. We will be paying more for our cottage electricity in total than we will be for our principle residence. This makes absolutely no sense.

Should this proceed, we may have to look to come off the grid. We would ask you to reconsider.

Thank you.

Neil Davidson.
