## **DECISION AND ORDER**

**EB-2020-0308**

## **WEST WINDSOR POWER**

**Application for an Electricity Generation Licence**

**BY DELEGATION, BEFORE: Brian Hewson**  
Vice President  
Consumer Protection & Industry Performance

---

**March 4, 2021**

**DECISION AND ORDER**

West Windsor Power filed an application on December 22, 2020, with the Ontario Energy Board (OEB) pursuant to section 60 and 74 of the Ontario Energy Board Act, 1998 (OEB Act), for a renewal of an electricity generation licence.

This Decision and Order is being issued by the Delegated Authority pursuant to Section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

West Windsor Power owns a generation facility with an installed capacity of 135.4 MW which is connected to Hydro One's distribution system. The facility has been in operation since May 31, 1996. West Windsor Power sells energy to the Independent Electricity System Operator (IESO) pursuant to a Non-Utility Generator contract. West Windsor Power also provides ancillary services to the IESO. The facility is operated by the applicant's affiliate, ENGIE Operations Canada Inc. under licence EG-2000-0419.

The applicant has requested a change in the name under which the facility is licensed. The current electricity generation licence for this facility is in the name of Engie Canada Inc, on behalf of Tractebel Windsor Power LP, the majority owners of West Windsor Power. The request to change the name to West Windsor Power arises from the applicant wanting to ensure consistency with the IESO's current records.

After considering the application, the OEB finds that it is in the public interest to issue the electricity generation licence to West Windsor Power.

**IT IS ORDERED THAT:**

1. The application for an electricity generation licence is granted, on such conditions as are contained in the attached licence.

**DATED** at Toronto March 4, 2021

**ONTARIO ENERGY BOARD**
