Subject: Seasonal Rate Class EB-2020-0246

After reviewing the example chart it appears my rates would go up 100 percent which is unacceptable when cost of living only goes up 2 percent annually. It appears I would pay 113.00 dollars a month delivery fees even when cottage is closed for 6 months . It appears I am paying about 54.00 dollars a month now for delivery fees, to raise it 100 percent someone should be charged with theft.
