Subject: Re: EB-2020-0246

To whom it may concern,

I am writing to take issue with your letter dated February 11, 2021.

Firstly, the term "seasonal rate class" is a misnomer. If I am deemed "seasonal" why do I pay delivery charges year round?

Secondly, why are the lowest users being punished the most? Isn't that completely opposite of the government's mantra to conserve energy?

Let's call it what it is. This is merely another cash grab aimed at the lower and middle classes, who are doing the right thing by being energy conscious.

I do realize that you want no push back, otherwise there would have been contact information included in your letter.

Bruce Kirkby
