Are you serious ...and before I start ....am I believing that you are going to increase our rates by \$650./ year.... in addition you are going to do this for at least half of ont. customers. Of course southern Ontario. Will get a rate decrease.... I have all ready contacted my mpp and will vote next election For any one else but the conservatives... this is crazy on so many levels. In addition we are paying increased property taxes yearly because somebody in southern ont believe it is unfair that northern ont pays too little compared to southern ont. when are paying all these equalization going to get all the benefits like southern ont. a question for the oeb.. have you ever asked hydro one to reduce their costs ex. Buying elec. from quebec is cheaper at all levels than rebuilding Bruce nuclear ( when are we to pay for that. Oh yes it will be all of us instead of just southern ont as far as hydro workers... how many aren't, on the sunshine list. Hydro workers on Bruce retro fit get 6.98 dollars for every one on their pensions. I worked for resolute forest... I got 1 for 1: how come equality only works for southern ont. I can continue but will leave it for later..... yours. What ever
