As a seasonal property owner I am vehemently opposed to the Ontario Energy Board's decision to eliminate the seasonal resident rate class. Our cottage may only be accessed for a few months of the year. To be expected to pay full rates is unconscionable. I pay for the energy I use May through October. There is zero energy use the remaining months. To charge me without subsidization is grossly unfair and penalizes seasonal users of Hydro One services. I would appreciate a response at your earliest convenience. Thank you.
