To the Board,

I am writing this letter/comment in regards to the proposed changes in the Hydro Rates for Seasonal Properties OEB File # EB-2020-0246. As an owner of a seasonal property, I Salvatore Catalanotto (Account [REDACTED]) am against the rate increases that are being put forward by Hydro One. I am a senior citizen on a fixed income and find this rate increase unacceptable. In the past I have followed the recommendations set forth by the Ontario Government and Hydro One by conserving my usage and replacing items to a more high efficiency such as LED bulbs and High Efficiency appliances at my seasonal property at great personal expense. After all the changes I made I am going to be penalized for my conservation with an increased bill. Again, I am against this rate increase because in my opinion it is unjustified. Thank you for your time in reading this and hope the board reconsiders these proposed changes.

Sincerely,

Salvatore Catalanotto
