## **LETTER OF COMMENT**

### **Comments:**

We strongly disagree to your proposal of the elimination of the 'Seasonal Rate Class'. As it would incur an enormous amount of expense for us as senior pensioners. Our Hydro usage is minimal, it would more than DOUBLE our Hydro bill. Our cottage is not a winter living dwelling, it is seasonal. Because we have a cottage doesn't mean we are rich and can afford double Hydro bills. Raising the rates for seasonal property owners is discriminating. An additional rate cost, if any, should be applied to high volume consumers who use it continuously, not seasonal users.
