**Re: Lakefront Utilities Inc. - MIST Meter Installation**

Dear Ms. Walli:

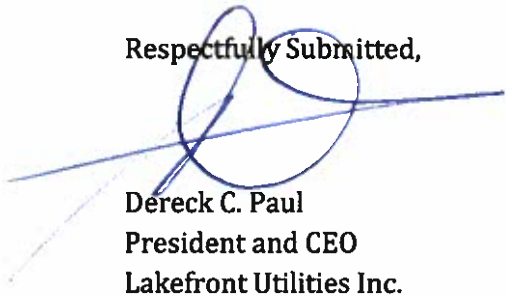

As specified in section 5.1.3 of the Distribution System Code, Lakefront Utilities Inc. (LUI) is required to install Metering Inside the Settlement Timeframe (MIST) meters by March 31, 2021 for any customers that have a monthly average peak demand during a calendar year greater than 50 kW. This letter is to advise the Ontario Energy Board that it is unlikely that LUI will meet the March 31, 2021 deadline.

LUI had 117 meters to replace at the beginning of the program and currently has approximately 30 outstanding meters left to replace – approximately 75% of the meters have been changed.

As a result of COVID-19, LUI has experienced difficulty accessing business locations safely to change the remaining meters. Further, LUI has experienced difficulty in obtaining its specified interval meters for this class of customer and the meter supplier has informed LUI that the meters will not be available until late second or early third quarter of 2021. Lakefront would prefer to wait until its specified meter is available and will likely be able to complete the remaining meter replacements by December 31, 2021.

Should the board have questions regarding this matter please contact me at [dpaul@lusi.on.ca](mailto:dpaul@lusi.on.ca).

Respectfully Submitted,

Dereck C. Paul  
President and CEO  
Lakefront Utilities Inc.
