EB2020-0246, Written Comments

I received the notice of the Ontario Energy Board Hearing to consider the next steps in eliminating Hydro One Networks' Seasonal Rate Class and advising of the anticipated move into the Residential Low Density Class. The notice is addressed to my deceased sister, Esedra Laschi. I am the owner as surviving joint tenant.

I am distressed that the anticipated move would result in an estimated monthly bill of \$238.75, which I consider unreasonably excessive. I have been billed at the Seasonal Rate, higher than the normal rates charged, and now it is proposed to increase even higher than the other proposed rates.

My total 2020 Hydro One bills amounted to \$1,179.74. Under the proposed scheme the annual bill, excluding additional power consumed, would be \$2,865.00, an increase of 142.85%, which is highly unfair and unconscionable.

An increase of say 10% to 15% is understandable, but the proposed increase is beyond the pale.

I respectfully request that you reconsider.

Eletra Laschi
