I am already paying for 2 quarterly costs when the electricity is shut off at the main. I am retired and cannot afford to be paying for the increases caused by Hydro lack of efficiency and overpaying employees. Do I have to sell after 40 years and break my childrens heart?? They have grown up on coon lake. As a retired senior citizen, I am disgusted at that thought of losing the cottage because Hydro wants more money to pay for their lack of internal discipline.
