Subject: Elimination of Seasonal Rates

Dear Sir or Madam,

I am a seasonal customer of Hydro One. According to a letter I received from February 8, File number EB-2020-0246 I understand that my customer classification will be changing as the OEB plans to eliminate seasonal rates and move me to a residential rate class.

I understand there will be a public hearing to consider this plan from Hydro One and I wish to file a letter of comment which will be considered during the process. I would like to be an intervenor as well so that I am aware of what the resulting decisions contain.

My contact information is the following:

Carolyn Schwartz

[REDACTED]

The seasonal property involved in this change is [REDACTED].

I strongly urge the OEB to implement this change gradually over an agreed time period.

Thank you for your attention,
Sincerely,
Carolyn Schwartz
