RE: Intervenor OEB
EB 2020-0246

Hello folks:

As a long term customer of Hydro One, we are very concerned about the potential rate increase for next year. We are quite sure that a rate hike of 50%+ for an essential service is illegal. We are very circumspect with our hydro usage already and can ill afford such a higher monthly

bill; farming as we do is not a high income profession.

Please take the reality of fixed income earners such as ourselves as you consider your potential rate hikes.
