Thank you for the opportunity to share my concerns regarding the proposed changes to the Seasonal Rate Class (EB-2020-0246) status for residences using hydro one service. I would like to make an oral presentation to the board as they deliberate to determine next steps and final outcome. This rate change will have a significant impact on many and comes at an unprecedented time of struggle. I am already concerned by the high cost already incurred compared to our usage and need. I look forward to the prospect of participating in these deliberations.
