I became a "seasonal" customer when I bought my cottage in 2018. I only learned about this proposed change to "R2" when I received Hydro One's letter of Feb. 24, 2021. As a low volume customer I agree with everything the Federation of Ontario Cottagers' Associations (FOCA) said in their letter of June 19, 2015. I implore you to please read FOCA's letter again and adapt your implementation strategy accordingly.
