Subject: Elimination of seasonal rate

To whom it may concern;

Please be advised that I am a tax payer and seasonal resident on MacKenzie Portage Road and have been since 1956. I have certainly contributed to the economy and growth of North west Ontario while enjoying the benefits of Sunset country.

It is beyond comprehension and common sense that the OEB would elementary in the seasonal rate for hydro costs. Hydro One energy costs are some of the highest in North America.

One would think the province would encourage the use of seasonal rates by keeping them within a reasonable range rather than elimination of the category completely. Short sighted. You have just pushed me into inquiring about solar power, and propane usage.

May common sense prevail, and seasonal rate class be retained.

Doreen Draffin. [REDACTED]
