OEB FILE # = EB-2020-0246

I am a "seasonal Rate Class" customer residing at this property for only 6 months maximum per year and this change would affect me significantly. Based on this I do not support this elimination of the Seasonal Rate Class. Last year I payed \$535.30 for the 2020 year to Hydro One however, only was utilizing the property & energy for 6 months. This change to move me to a Residential Low Density (R2) class customer will increase my annual fee to \$1,369.56. Being only a seasonal property user this cost is nearly 3 times what I pay now.

I would like to stay informed as to the progress and outcome of this issue.

Suzan Brodie
