Subject: Case Number eb-2020-0246

AS a seasonal cottage owner in Hastings County, Ontario, I am objecting to the extraordinary hydro bill increase we have been informed about if the seasonal rate is eliminated. The delivery charge will be 100% increase which is excessive. I ask that you consider ways for full time residents to conserve energy to lower their bills and allow the seasonal rate delivery charge, already High to remain.

Thanking you in advance

Mike Reid
