**Subject:** Seasonal Rate Class Elimination [CSE: 01qFqm, TKT: kJazXu]

To Whom It May Concern,

I am writing to protest the removal of the Seasonal Rate Class option for electricity bills. Increasing the amount of delivery for the same amount of electricity used does not make any sense whatsoever and penalizes those of us who choose to have a summer home in Ontario.

Please log this email as another normally happy consumer not being particularly pleased about this new potential decision. I hope and trust that the Ontario Energy Board will rethink this decision and not penalize the seasonal consumers.

Sincerely,

Linda Stopford
