

Mar 1/21

To: Ontario Energy Board Hearing,
Letter of comment concerning change
of seasonal rates.

Our property is truly a cottage (nowater)
with only 1 season of use available
May 24 (Victoria long weekend to Labour
Day long weekend) Sept 7, approx 109
days.

Last year 2020 total hydro cost was
699.07. I believe that amount of
money was plenty for 109 days use.

If we get moved at all I also believe
that it should be into the lowest
rates possible.

There is also an entire years worth
of taxes paid for such a short time
of use 109 days.

Sincerely
Corie Barger-Jung
