TO: O.E.B.

Dear Sir or Madam,

Re your file # EB-2020-0246

I have received your letter re
eliminating my rate class.

I am VERY UPSET!!

I understand my hydro cost may go
up 25%.

Through the years, first you told us
hydro was plentiful and cheap.
Secondly you told us there were
shortages and we should cut back

and conserve energy.

Later you told us there is actually too much Hydro and ~~so~~ we are dumping it at a loss.

Now you want to hit rural communities very hard.

I am 74, my husband is 79.

We try to conserve and not use very much Hydro. Now we are paying for this! It is an outrage. Surely you could come up with a system that is more fair

My account number is 

Mary and James Parker

Mary L. Parker
J W Parker
