Subject: Elimination of Hydro One Networks Inc's Seasonal Rate Class EB-2020-0246

Hi.. I want to be informed of next steps and how the decision will roll out for those of us who are already paying extreme rates for a seasonal property we rarely get to. This is definitely a push to seriously consider a move to solar panels to supply our electricity. Too bad the consumer can't set the rate to charge Hydro One for any excess power generated from solar.

Thank you, J. Snedden and P. Summers
