Ms. C. Long, Registrar
Ontario Energy Board
P.O. Box 2319
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Dear Ms. Long

Re: Framework for Energy Innovation: Distributed Resources and Utility Incentives (EB-2021-0118), FEI Working Group Nomination

Please accept ChargePoint's nomination of Cara Clairman for the FEI Working Group.

Cara is President and CEO of Plug'n Drive, a non-profit that is accelerating the deployment of electric vehicles (EVs) to maximize their environmental and economic benefits. In just over six years, Cara has taken Plug'n Drive from an idea to a thriving non-profit, recognized as a leader in the EV space. Cara has more than 20 years of experience working in the environmental and sustainability fields, including 12 years working at Ontario Power Generation, initially as OPG's environmental lawyer and later in the role Vice President of Sustainable Development. Prior to joining OPG, Cara spent five years practicing environmental law with the Torys law firm. She holds a Bachelor of Laws from Osgoode Hall and a Masters in Environmental Studies from York University, as well as an Honours Bachelor of Science degree from Queen's University. Cara is the 2017 recipient of the Women in Renewable Energy's 'Woman of the Year' award.

Cara's experience in Ontario's electricity sector as well as her expertise in EVs will be an asset to the Working Group, and Cara is well positioned to represent the interest of the transportation electrification sector.
