Hi there.

I have a cottage on Pearl Lake.

As it is, I just paid \$1694.00 for a quarterly bill. This is twice as much as I pay for my home in London. By eliminating the seasonal class rate and classifying me as R2, you are now going to increase my rate by 19% (\$38.00/mth). This is significant. While having a cottage is a luxury, you are making it harder and harder to maintain one. This is a cottage that has been in the family for 55 years. I have been fortunate enough to inherit this, and would love to be able to keep it, but you are making it extremely hard to afford. I would appreciate it very much if you could rethink this plan of eliminating Seasonal Rates. Thank you. Mickey
