Dear Ms. Long:

**Re: EB-2020-0290 Ontario Power Generation Payment Amounts Application**

I am writing further to the Board's letter of April 21, 2021 to provide a list of interrogatory refusals that Environmental Defence is refuting. They are as follows:

- Re Surplus Baseload Generation Study:
  - ED-3
- Re Pickering Generating Station Costs:
  - ED-4
  - ED-9 a) and c)-f)
  - ED-10 c), e) and f)
  - ED-11 a)-c)
  - ED-13
  - ED-14 a) -t)
  - ED-15 all parts except c)
  - ED-16 b)-d)
  - ED-17
  - ED-18 (b), (d), (f), (g), (j) and (k)
  - ED-19
  - ED-20 c), g), h) and i
- Re Small Modular Reactor Costs:
  - ED-21
  - ED-22
  - ED-23 b), c), e), and g)
  - ED-24 a)-e) and g)-h)
- Re OPG Climate Change Plan:
  - ED-1

Although Environmental Defence disputes the validity of the refusals in ED-6(e) and ED-7(a), it is not seeking to challenge those.

Yours truly,
